Flat-Earth Education

i'm a flat-earth astrologer [more or less];
getting in tune w/ this whole nature/life
business

so far so good(!)

ups & downs of learning of course 🙌

got this bad boy fixed(!!!!!)

serious waitage on that one [was down since Nov-Dec 2023] – been seeing an **Error** message that was persistent...

solution was to FTP into the page & code the HTML by hand [the Preview editor native to C-Panel is/was changing code when in preview mode]

shoutout to the community(!!)

back in glorious action

a lot of my focus has been on the **shoppe**

been advertising on Google & trying to draw some clicks/sales... getting there(??)

the site's been online since 2021 & has had very little traffic/action, other than me updating it regularly – hopefully building it to 🙌 (!)

Riley's Exotic Goods

great stuff
